

All parties involved in the development of this model:

Amongst the 1000+ members of eco, there are some 150 companies active in the domain industry. Drafts of the model have been sent to these members for feedback, which has been incorporated into the paper.

Further, the model has been shared with the RySG and RrSG. Both the RySG as well as the RrSG support submitting the eco GDPR Domain Industry Playbook to ICANN. However, further discussion needs to take place in these groups. They believe the Playbook is a viable baseline and look forward to additional debate.

The following companies have agreed to be mentioned as parties that have been involved in the development of the model and / or they have provided input into the development of the model. The companies listed support the submission of the proposal, but certain aspects need further discussion. The mentioning of the companies shall not be construed as formal endorsement of all aspects of the model.

1&1 (IANA-ID 83)
Arsys (IANA-ID 379)
Blacknight Internet Solutions (IANA-ID 1448)
GoDaddy (IANA-ID 146)
Strato/Cronon (IANA-ID 141)
Tucows (IANA-ID 69)
United Domains (IANA-ID 1408)

Given the limited time that was available to be added to the list, we trust that many more companies would like to be listed and we might provide an updated list at a later stage.

eco has conducted a public consultation on the model in Brussels on December 11th, 2017 with participation from a variety of stakeholders, including the European Commission, Law Enforcement and ICANN, see <https://web.eco.de/en/news/follow-up-report-gdpr-domain-industry-playbook-public-consultation/>. Recordings of the meeting can be found here:
